

MDCA1573: Externship

Credit Hours: 5

Clock Hours: 0/0/225

Students perform medical assistant functions in a medical facility. They are supervised and evaluated on skills acquired in the program content courses. Students perform phlebotomy, injections, patient record maintenance, vital sign measurement, patient exam preparation, and other medical assistant duties as assigned by the physician, on-site supervisor, or extern coordinator.

Prerequisites:

MDCA1312-MDCA1362; All CPSO courses
